NO VISIBLE OIL DARKWOOD HPU-5003

This invisible 1 component water-based oil has the characteristics of a varnish and is designed for finishing new, untreated or freshly sanded parquet as well as other rough wood parts, providing a long-lasting and matt finish.

Pay attention: only suitable for dark and exotic* wood types and not suitable for veneers thinner than $\pm 1,5$ mm, to avoid glue penetration. On light wood types, we recommend NO VISIBLE OIL HPU-5001. **View technical datasheet before use.**

*preferably degrease the wood before application

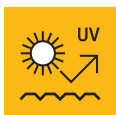

TECHNISCHE INFORMATIE

Abrasion

Drying Time

Humidity

ADVANTAGES

Ecological

This product conforms to EN-71.3 and has a very low VOC emission.

No yellowing

The oil does not yellow through time* and perfectly maintains the colour and natural gloss of dark and exotic wood species.

*wood types that naturally yellow at a faster rate, can show a small degree of yellowing despite the high degree of protection.

Permanent anti-UV-components

Contains permanent anti-UV-components that slow down the natural yellowing of the wood (with a total finish of 240 g/m² or 80 g/m²/layer).

No odour nuisance

Very low VOC level

3 g/L

Dries quickly

Stain resistant

PACKAGING

1 L HPU-5003
(box of 6 x 1 L)

2,5 L HPU-5003
(box of 4 x 2,5 L)

MADE IN BELGIUM
